

A FUTURE FULL OF HOPE and the Synod

Initiatives we'd like to see as young Catholics

Thoughts from the Prep Document:

'We would like to deepen our relationship with Jesus and make that part of our world. We respond to activities and programmes that give us a better understanding of the Sacraments, prayer and Mass. This understanding will help us to be bold in our faith'

'Sometimes we don't see the value in the Sacraments, especially reconciliation and Marriage.'

'Some positive experiences have been events such as World Youth Day; courses and programs that provide answers and formation, especially for those new to the faith; outreach ministries; youth catechisms; weekend retreats and spiritual exercises; Charismatic events, choirs and worship groups; pilgrimages; Christian sports leagues; parish or diocesan youth groups; Bible study groups; university Christian groups; different faith apps, and the immense variety of movements and associations within the Church.'

'We enjoy mixing our social lives with the Church.'

A FUTURE FULL OF HOPE

and the
Synod

Our thoughts:

What would we like to be involved in?

How can the Church help us better understand the Sacraments and what they mean to us?

Do you think you have a personal relationship with Jesus?

If yes: How do keep this relationship strong?

If no: What would make it easier for you to form that relationship?

Our Question to the Synod with 3/4 points of view:
